

#### ACTIVE INGREDIENT

Azoxystrobin,  
Tebuconazole

#### % ACTIVE INGREDIENT

11.9% Azoxystrobin  
26.9% Tebuconazole

#### FORMULATION

Flowable

#### CHEMICAL FAMILY

Strobilurin/Qol inhibitors  
Triazole

#### BRAND ALTERNATIVE

Unique Formulation

#### MODE OF ACTION

Acropetal Penetrant,  
Demethylation Inhibitor

#### SIGNAL WORD

CAUTION

#### PACKAGING INFORMATION

4 x 1 gal

**IMPORTANT:**  
ALWAYS READ AND FOLLOW  
LABEL INSTRUCTIONS.

# AZTEB SELECT™

FUNGICIDE

## *Powerful New Combination Fungicide*

**AzTeb SELECT™**, a systemic fungicide that provides preventative and curative control against diseases common to turfgrass. For use on golf course turf only, AzTeb SELECT provides total protection through a combination of foliar and root absorption. The highly systemic formula translocates throughout the turf insuring protection to the whole plant for up to 28 days. Can be used on cool and warm season grasses or their mixtures.

- Defends against both soil borne and foliar diseases
- Provides continuous protection for up to 28 days
- Complete root-to-leaf distribution
- Greater degree of root uptake when compared to other strobilurins
- Low use rate
- Convenient liquid formulation for easy tank mixing

  
**PRIME SOURCE**

# AZTEB SELECT™

FUNGICIDE

## Application Information:

**AzTeb SELECT** is for use in the establishment of turfgrass from seed or in overseeding of dormant turfgrass. May be used for control of certain turfgrass diseases associated with turfgrass establishment from seed. May also be used during overseeding of dormant turfgrass.

May be safely applied before or after seeding or at seedling germination and emergence to ryegrass, bentgrass, bluegrass and fescue turfgrass types.

This product not for residential use.

## RESTRICTIONS

Observe the following restrictions when spraying in the vicinity of aquatic areas such as lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, and estuaries.

- Do not apply by ground within 100 feet of aquatic areas listed above
- Do not cultivate within 10 feet of an aquatic area to allow growth of a vegetative filter strip.
- Do not spray AzTeb SELECT where spray drift may reach apple trees.
- Do not apply when weather conditions favor drift from treated areas to non-target aquatic habitat.
- Do not spray when conditions favor drift beyond area intended for application.
- Do not use spray equipment which has been previously used to apply AzTeb SELECT to spray apple trees. Even trace amounts can cause unacceptable phytotoxicity to certain apple and crabapple varieties.
- Do not apply AzTeb SELECT to turf by air.
